Cookies Policy

Cookies, what are cookies?

A cookie is a small text file that is downloaded on your device when you visit a website. It is sent to your computer or mobile device browser from a website's server and is stored on your device's hard drive. They are used in order for websites to recognise you and allow some content and features of the website/s you are visiting to be tailored to you.

For further information visit http://www.allaboutcookies.org/cookies/

What is the purpose of cookies?

Cookies enable us to provide an enhanced user experience by remembering your preferences and tailor our website to suit. For example with online shopping, cookies that record the information you enter will be stored so that in future visits you don't have to re-enter all of your information.

Opting Out of Cookies

If you prefer, you can restrict, block or delete cookies by changing your browser settings but that may mean that certain sections of our website may not work.

Types of Cookies

First Party Cookies - These are set by the website you are visiting and can only be read by them.

Third Party Cookies - These are set by external organizations that are used for added services. For example websites may have embedded content such as YouTube videos and cookies may be gathered by them.

Session Cookies – These are stored for the duration of your visit to the website you are visiting and are deleted from your device after your user session is finished.

Persistent Cookies- These are stored for a period of time usually when details that you have entered on the website need to be saved, for example preferences such as your username which is used regularly

Flash Cookies- These are used differently from other types as they are set by Adobe Flash Player. For more information on these please visit http://www.adobe.com/security/flashplayer/articles/lso/.
