File Types

A High Quality Print pdf at the finished size is our preferred file type. Alternatively you may set your artwork at either 50% or 25% scale. Please include the scale used in your file name. Image quality is of paramount importance so we ask that all images used are at a minimum of 150dpi at finished size.

Other file types we can accept are:

- Adobe Illustrator ai or eps version 6; please ensure all fonts are either embedded, outlined or provided with the file.

- Adobe In-Design version 6, be sure to package your file with all font and links included.
- High quality, uncompressed, jpeg set to CMYK at a resolution of 300dpi at finished size.

We can accept mock-ups in Microsoft Word, Powerpoint and Publisher but these are not print ready and will require further art working to make ready for printing. Please contact us if you have any queries on the artwork you wish to supply and we will advise how best to proceed.
